How is this possible?

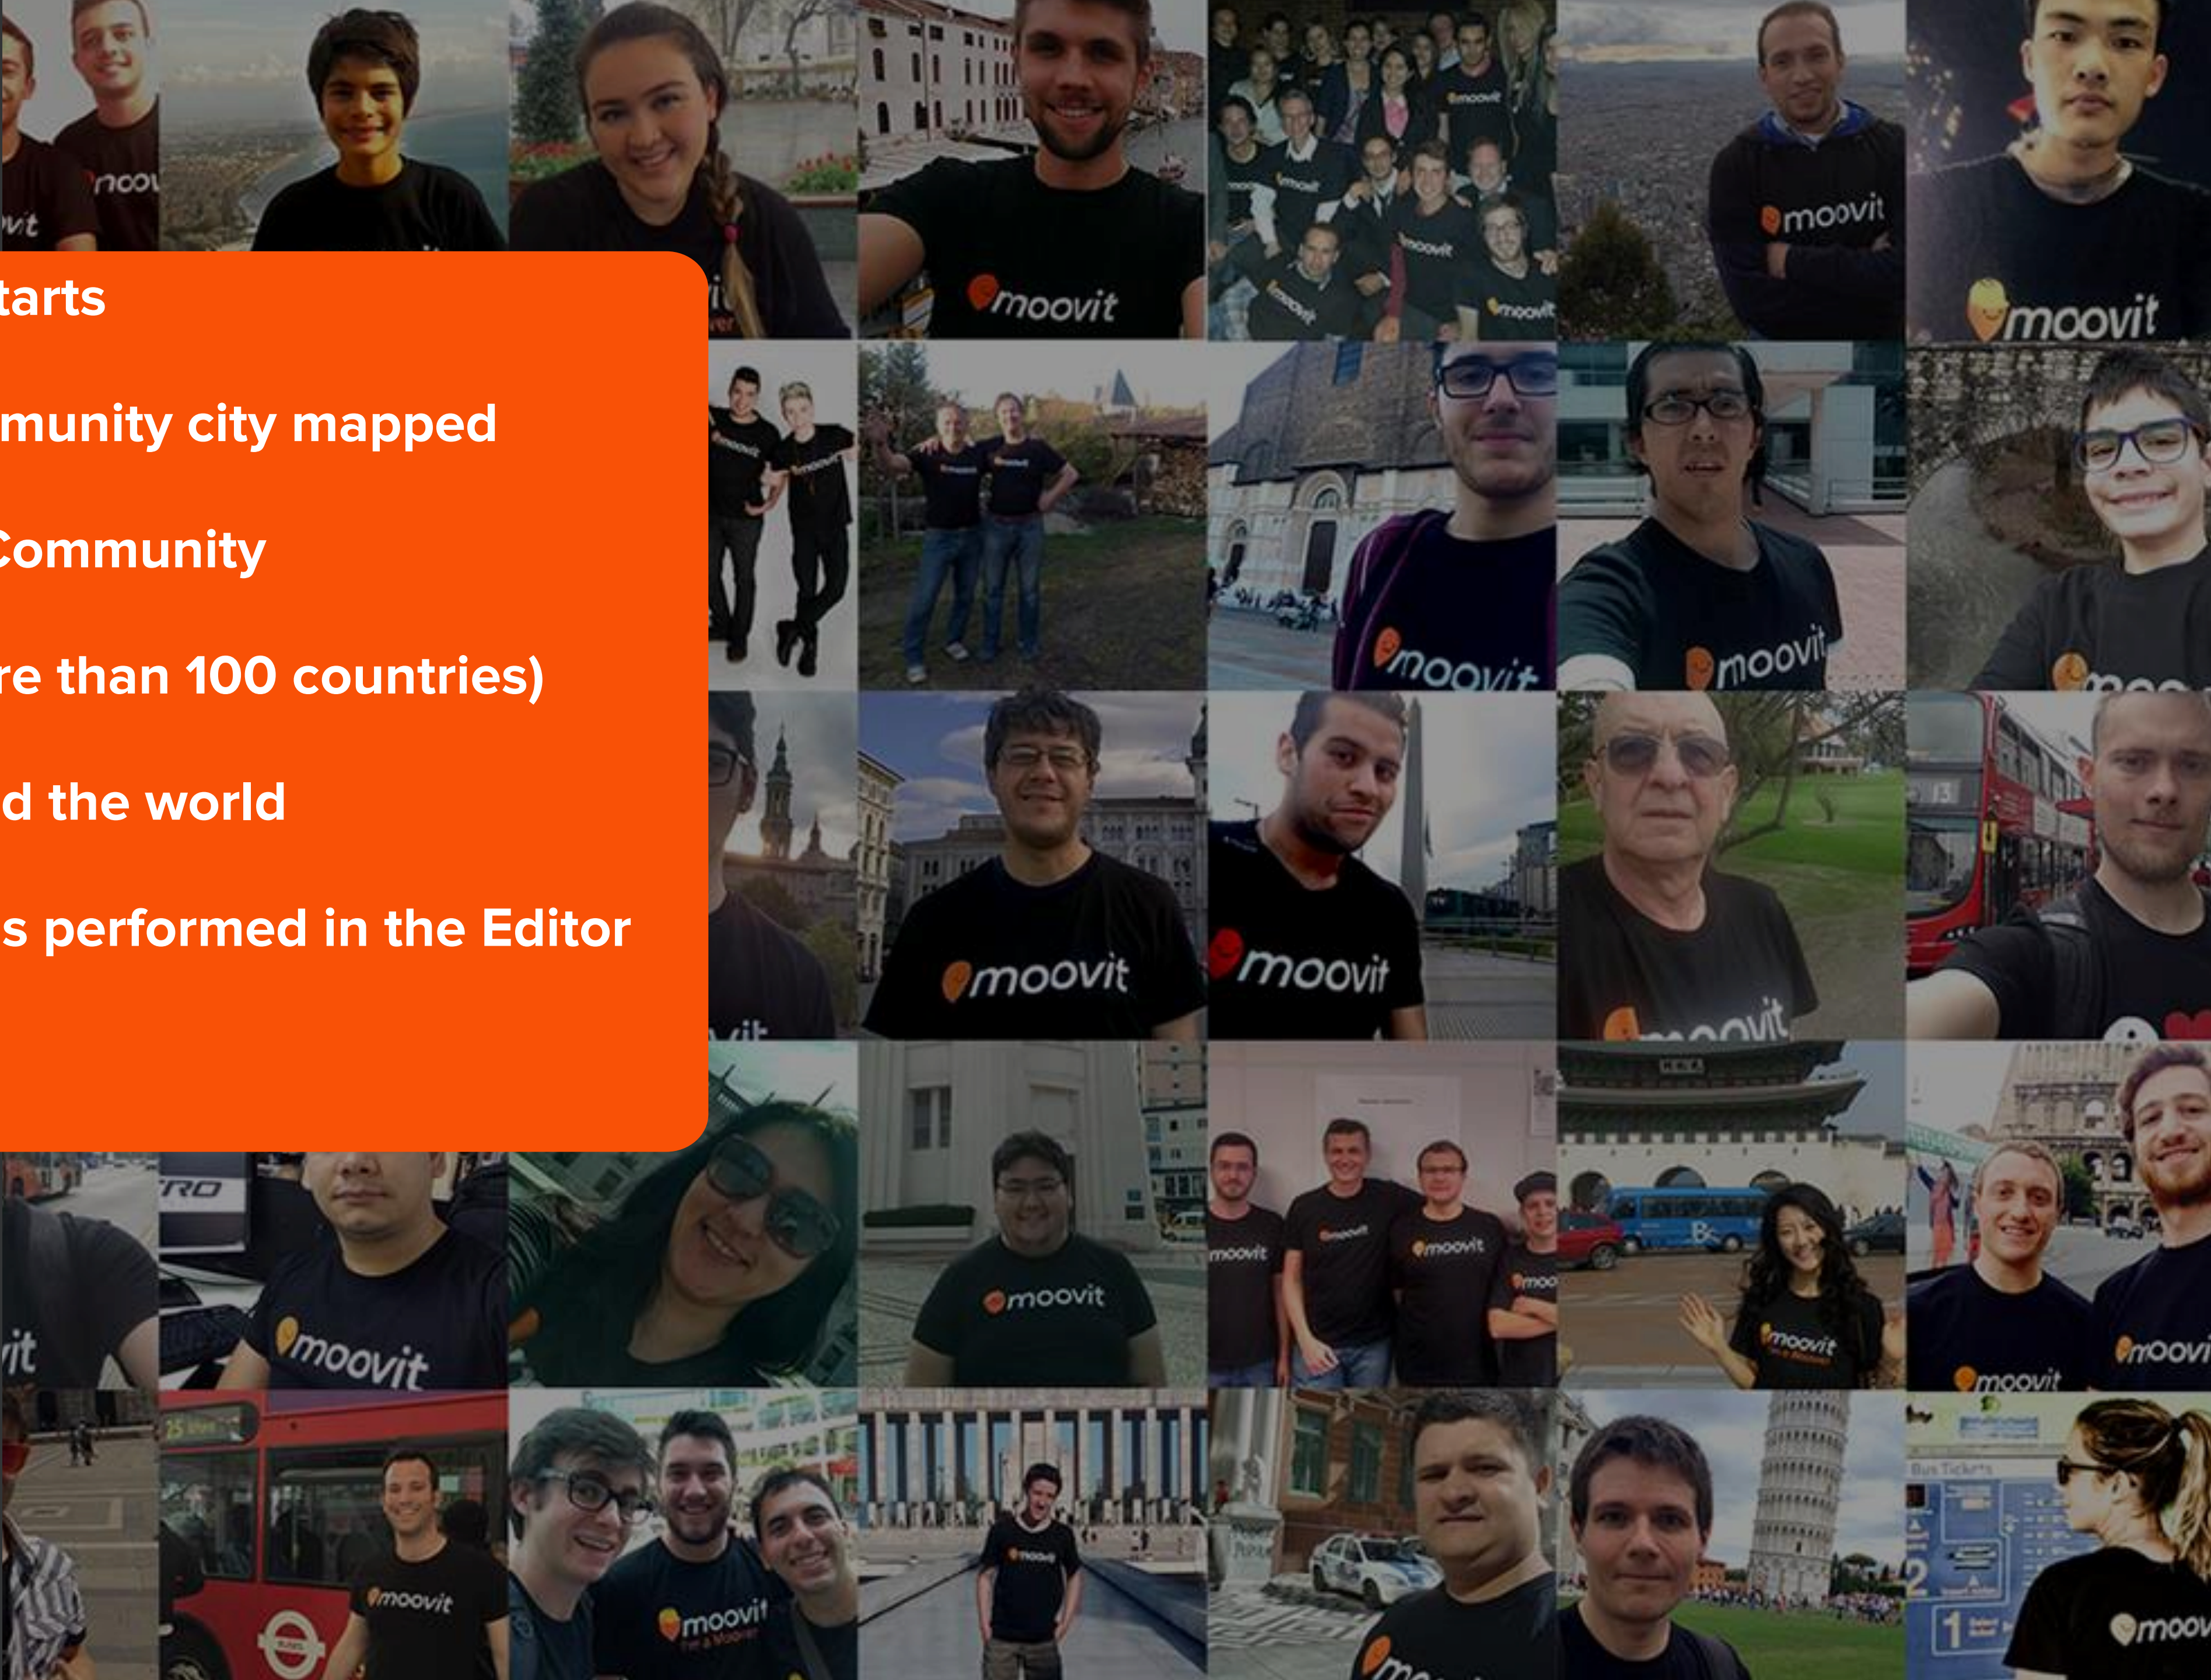

The Moovit Community - Our Mission

Mapping and perfecting the transit lines of the entire world, by creating one big team formed by thousands or even millions of local volunteers, and providing them with powerful mapping tools.

How can the entire world take part?

Why would anyone do this?

pride for their city

relevant to their studies

passion for tech and public transport

ALTRUISM

addicted to gamification

being part of something global

The Gong
The Guide to the Moovit Community

Monthly Applause

Hello dear friends of the Community,

Reaching the midpoint of the year is a great opportunity to reflect on what pleasure we have had in sharing so many unique stories from individuals across the world, that together have woven the fabric of the Moovit Community. This month is no exception, join us as we travel from east to west to hear from a few more marvelous community members and how they are all busy impacting the lives of others.

Bjorn the Magnanimous
Our first chat this month is with Bjorn from Eisenach, a large historical town northeast of Frankfurt, Germany.

Why do people stay involved?

TRANSIT APP MOOVIT LAUNCHES FIRST CITY IN CROATIA THANKS TO HELP FROM COMMUNITY PROGRAMME

croatiaweek February 24, 2016 Business

Zagreb

Moovit Community Editor Helps to Bring Real-Time Transit Data to Zagreb, Croatia

(Zagreb, Croatia) – February 24, 2016 – Moovit, the leading local transit app worldwide, is now available in Zagreb, Croatia thanks to the involvement of Moovit's Community programme. One Community editor – **Sinisa Belosevic** – volunteered his time and energy to map over 400 lines of Zagreb's transit system in just two months, making it the first ever city to launch in Croatia.

Moovit is a free app that gives users more control and peace of mind when riding public transit.

Users can also help to keep the app up-to-date by submitting service alerts and reports about to-the-minute transit delays, service changes and other obstacles in order to help other riders have the most accurate picture of their journey.

"I used the Moovit app during a visit to Israel and it was wonderful," said **Sinisa Belosevic**.
